BROWN Alpert Medical School OASIS

Data Analysis Report - Faculty

2018-2019 : Medical Education : Med Ed-BIOL3655 - Human Anatomy II

Report includes courses starting on/after 01/02/2019 and ending on/before 04/05/2019. 802 of 858 (93.5%) evaluation forms have been submitted. Showing 802 of 802 evaluation forms.

9 Thank you for all of your help!

11	Great!
12	Aaron is excellent at thoroughly explaining anatomy.
13	Aaron Olsen was a great anatomy TA. He was clear and patient in his explanations both in class and in lab. He was very helpful and enthusiastic, and made the material engaging and interesting.
14	Aaron was excellent both as a lab TA and lecturer- during lecture I appreciated how careful he was about labelling
	everything and making structures and borders/boundaries clear. In lab he was friendly and helpful and I appreciated how he went out of his way to look things up and use the anatomy atlases in teaching if he didn't immediately know the answer to a question.
15	Would sometimes speak a bit too quickly, but otherwise was really great!
16	N/A
17	Aaron was enthusiastic and is probably a clear lecturer who was stuck presenting some very unclear material! I'm confident any lack of understanding was a product of the material vs his teaching.
18	NA
	I had a little trouble following the cavities lecture. Helpful during lab.
20	I especially appreciated how approachable and helpful Aaron was during lab. I remember feeling a little confused about certain parts of Aaron's lecture, but can't remember exactly what it was, so I'm sorry I can't give more specific feedback. (General note - I think it would be better to have evaluations for anatomy TAs right after their last lectures, rather than after the entire course is over.)
21	N/A
22	Very helpful during anatomy lab. Great check-out sessions.
23	Really enjoyed learning from Aaron.
24	N/A
25	Engaging and clear. Great at answering questions.
26	very passionate about material, provides thorough explanations
27	Aaron was a great lecturer, and also invested his time to stay after, especially for anatomy review.
28	Good pace, clear lecture, and a very helpful and informative TA during lab.
29	Very much enjoyed his teaching!
30	Not much to critique! Thanks for a stimulating year.
31	Great energy. Overall good, although explanations could sometimes lead to confusion.
-	aaron knows his stuff
	NA
	approachable and explains well
	I liked the pace of Aaron's presentation
36 37	The lecturer displayed a lot of enthusiasm and encouraged us do our best. Great enthusiasm, but some of the concepts presented were quite complex and it didn't seem like there was enough
	time to explain them fully.
	Thanks for all your help during lab, Aaron, esp. when helping us dig for structures. I also think the way you explain things using the atlases for reference is really effective
	none Aaron was always enthusiastic to help me and my group identify structures. He would aid us in the dissection
+0	whenever we were wary of finding something in particular. His review sessions in the lab were always clear, well- organized and a helpful study tool for the exam!
41	Aaron was incredibly helpful and clear. He answered all our questions and when he wasnt sure, he went to look up the answers. He was always approachable and provided support when we had trouble finding structures.
42	Aaron is really really helpful in lab and gives good lectures. Thanks for everything.
43	Great TA! So supportive and intelligent
44	Aaron was my favorite anatomy TA since he always knew the material and, on the rare cases he didn't, he knew where to go to find the answer. Very knowledgeable and informative!
45	Excellent lab TA. Always incredibly helpful and insightful and very excited about the material.
46	Aaron was a great resource in the anatomy lab. He was clearly well-versed in human anatomy and answered questions with clarity.
47	Always available to answer questions and willing to research answers with students. Patiently explained difficult concepts.
48	Helpful during labs.
	Aaron seemed unapproachable in anatomy lab. I don't remember him lecturing so I won't comment on that.
50	Aaron was amazing. All questions asked, he answered. He went above and beyond and showed us diagrams regarding innervation.
51	Great rapport!
52	Great job overall!
	Aaron is very knowledgeable and helpful in lab.

54	Great lecturer. I did feel a little off-put when my group had expressed wanting to use a different cadaver to explain the anatomy of the leg during MSK presentations and you responded in a way that I felt implied we hadn't properly
55	R/Apared.
56	Thanks for being so enthusiastic and engaging!
57	Very knowledgeable.
	Aaron is a good T.A. and lecturer. The presentation was clear and succinct
59	N/A
60	Great explainer
61	Aaron was very helpful in studying for exams and was willing to take the time to explain topics over and over again
	for us, which I greatly appreciate. I thought his lectures were clear and concise, but sometimes he spoke too quickly
	and was hard to get all of the information down! I would recommend slowing his speaking pace and making sure to look up for questions, but otherwisevery good!
62	I found Aaron very helpful in lab, but not always the most enthusiastic and engaged in what we were learning. I
	thought his lecture was okay, not one of the better ones that we were given. It lacked some enthusiasm, and did not feel well practiced.
63	Fun and informative, seems to love teaching. Only sometimes goes a little too quick but is always happy to help and teach
64	
	learning the anatomy his own knowledge far out surpassed my mental capacity at the time
66	Aaron clearly cared about teaching and also knew the material extremely well. I wish all TAs were like him!
67	Super helpful questions and answers, always willing to help us expose structures.
68	Aaron was a great and very helpful TA. Thanks for a great year!
69	Aaron was a good teacher and presented the information well throughout the anatomy course. He was also helpful during labs and was always willing to answer any questions.
70	Aaron was a strong lab TA who brought great enthusiasm to lab.
71	Aaron was an exceptional TA, he explained concepts out of his own time after lab and was willing to explain concepts
	multiple times if needed.
	Always enthusiastic about teaching others and making sure concepts are clear
73	Very helpful and friendly in lab! Was eager to find more information, visuals, and answer questions.
74	Aaron is clear and concise.
75	n/a
75 76	n/a Very very kind, generous, compassionate, intelligent, and clear. Aaron was always ready to help and always did so effectively. Thank you!

But his lectures sometimes were a little unorganized and he talked fast a bit, but all in all was still a great resource. Aaron is really knowledgeable about anatomy and it is very evident during anatomy lab. One comment I would make about his lecture was that he seemed to overemphasize certain concepts that were not super important. I think if he focused on the key concepts it would help with any future time constraints n/a Great Teacher Very helpful in lab and lecture! None Aaron really knows his stuff, and aways took extra time to explain topics to us.

97	Aaron was super knowledgeable and great at answering questions, especially those about physiology. I unfortunately didn't get to work with him too much in the second semester, but the interactions I did have with him were positive.
98	Helpful in lab
99	Aaron's lecture was a bit hard to follow and he could have slowed down a bit during the more complicated sections. However, he is a great TA and I enjoyed whenever he would help us in lab, and his lecture was good too.
100	Excellent TA.
101	N/A
102	Very knowledgeable and helpful.
103	Great at explaining difficult concepts.
104	Aaron's lectures were always clear and organized.
105	n/a
106	Aaron is unbelievably helpful in lab - you really feel like he's there to support you and he's both so knowledgeable and so willing to take the time to explore and look things up that he's not sure about either. My only suggestion is tha some of his lecture material could be a bit overwhelming - I sometimes had trouble keeping pace during the lecture and had a hard time keeping track of which things would be most valuable in my clinical experiences later on
107	Thank you so much! I enjoyed your lectures!
108	n/a
109	I thought Aaron was very helpful during lab and always gave sound guidance.
110	Aaron was by far the most knowledeable of the TAs. He also knew the right answer or would go find it if he didn't. However, I was apprehensive of Aaron on occassion he was not apporachable at times.
111	Enthusiastic and informative TA. Thank you!
112	Good lectures and very helpful during lab.
113	Also very approachable during lab. Took the extra time to explain and check in with our lab group from time to time.
114	Aaron was helpful! Sometimes a tiny bit unprepared, but always kind.
115	I loved your enthusiasm to share with us helpful tidbits for learning trickier parts of anatomy.
116	Thank you!
117	Helpful TA
118	Aaron is really nice and clearly very knowledgable. He was able to really talk through each section and was clear and concise.
119	Aaron was a great TA, and often took time to explain difficult systemic processes in lab to help us understand things better. I appreciated his explanation of the hand and also how he went over CT scans with our group.
120	N/A
121	Anatomy TAs made lab so enjoyable
122	Aaron's lectures and assistance during anatomy lab were very clear and helpful in better understanding anatomy.
123	Good lectures!
124	Friendly and knowledgeable. The lecture that had phonation was a bit scattered though.
125	N/A
126	I enjoyed Aaron's lectures, and his enthusiasm was a pleasure to have in the lab.
127	NA
128	Loved his enthusiasm and willingness to teach and help students.
129	Aaron was a good instructor. His lectures were well done, but every now and then, concepts in lecture or lab would need a bit more discussion. If that was the case, Aaron was very responsive to further questions and discussion.
130	Aaron was a really helpful lecturer and postdoctoral teaching fellow. I found his explanations thorough and beneficial to my learning. His knowledge of the content discussed in lecture and in the anatomy lab was evident as was his investment in student learning and understanding. It was great learning from Aaron.
131	Very approachable in lab and helpful when trying to find structures that were difficult to find / clean up. Gave good advice on how to approach the dissection.
132	great job, thanks!
133	Dr. Olsen was very methodical in the way that he explained things which was very helpful.
